

The 2nd Meeting of the 14th ASOSAI Research Project

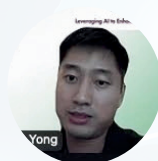

26 June 2025

The 2nd Meeting of the 14th ASOSAI Research Project, under the theme “Leveraging Artificial Intelligence to Enhance Efficiency and Effectiveness in Public Auditing,” took place online on 26 June 2025. The meeting was hosted by SAI Thailand, in its capacity as the Project Leader, and attended by representatives from 17 ASOSAI RP Members.

The meeting commenced with opening remarks by the Project Leader, **Dr. Sutthi Suntharanurak, State Audit Advisor, SAI Thailand**, followed by the official proceedings, which were divided into **four sessions** as follows:

Session 1: Vision for Leveraging AI in Public Auditing

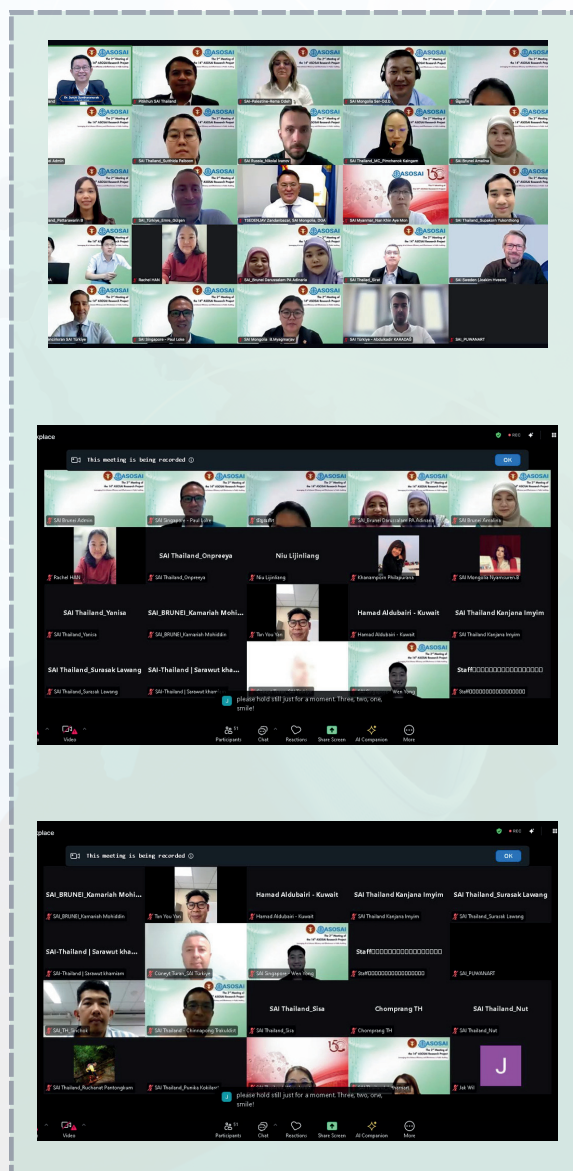

Mr. Paul Loke, Director of Digital Innovation and Chief Data Officer, SAI Singapore, delivered a presentation on SAI Singapore's vision for applying AI in public auditing. His presentation highlighted key approaches, strategies, and experiences related to integrating AI into the audit process. During the Q&A, **Mr. Khoo Wen Yong, Deputy Director**, joined the discussion and provided additional insights.

Session 2: Presentation on Draft Chapter 2 – Literature Review

Mr. Nikolai Ivanov, Counselor, Department for International and Regional Cooperation, from SAI Russia, and **Ms. Zhang Haihui, Deputy Director, and Mr. Lin Kuangda, Project Officer, from SAI China**, as co-leaders of Chapter 2, jointly presented the draft of Chapter 2: Literature Review to the meeting. The content covered global trends in applying AI in public auditing, common challenges, and preliminary findings from the survey conducted among ASOSAI member countries regarding their current use of AI in audit practices. The meeting endorsed the overall content of the draft.

The 2nd Meeting of the 14th ASOSAI Research Project

26 June 2025

Session 3: Sharing Experience – Using AI in Public Audit

Experience sharing on the practical use of AI in public auditing by ASOSAI and non-ASOSAI members, with participation from **six countries**, including:

1. SAI Brazil: Alice 360 – AI-Powered Public Procurement Analysis prepared by Mr. Rogerio Sampaio Boaventura, Specialized Audit Unit for Data Integration, Methods, and Technologies for Audit (AudiDigital)

2. SAI Denmark: Using Generative AI when Developing Performance Audit presented by Mr. Emil Thylin, Deputy Director, and Mr. Snorre Frid-Nielsen, Ph.D., Senior Consultant

4. SAI Sweden: Experience on AI Use in Public Auditing presented by Mr. Joakim Hveem, Economist

5. SAI Türkiye: SayBot: AI-Powered Audit Assistant presented by Mr. Abdulkadir KARADAĞ, Auditor

3. SAI China: Application Case of Generative Artificial Intelligence in Auditing presented by Mr. Niu Lijinliang, Zhejiang Provincial Audit Office

6. SAI Thailand: Using ChatGPT to Enhance Performance Auditing: A Case-Based Experiment on Five Thai Water Governance Reports presented by Dr. Sutthi Suntharanurak, State Audit Advisor

Session 4: Conclusion and Way forward

Briefing Introduction of Chapter 3: Mr. Semih ZENCİRKIRAN, Principal Auditor, Head of Data Analytics Department, from SAI Türkiye, as the Chapter 3 Leader, presented a brief outline of Chapter 3: The Current Status of AI Adoption in ASOSAI Member Countries to the meeting. The meeting reviewed and approved the proposed outline.

Closing Remarks: On behalf of the research project leadership, Mr. Pitikhun Nilthanom, Director of the International Affairs Office, serving as the Head of the SAI Thailand Research Team, expressed sincere appreciation to all ASOSAI member countries for their valuable cooperation. The meeting was informed that the minutes will be circulated to all ASOSAI RP Members in early August 2025, and that the next session will be held in December 2025 to present the Chapter 3 findings.

The meeting was moderated by **Ms. Pimchanok Kaingam**, Foreign Relations Officer, from SAI Thailand.
